RESOLVED—

(i) That the Board are of opinion that the present state of the finances of the University makes it impossible for the University to secure the services of Dr. Cullis at the sum mentioned by the Accountant-General.

(ii) That when the Revised Estimates are prepared, provision be made for an additional sum of Rs. 1,000 to meet the full salary of Dr. P. K. Ray, for December, 1916, and January, 1917.

(iii) That it be pointed out to the Syndicate that as Dr. P. K. Ray joined his appointment on the 6th April, 1907, after his appointment had been confirmed by the Government of India, and as consequently he will not complete 10 years of service by the date of the next Annual Meeting of the Senate, he is not entitled to pension, but may be awarded, according to the rules, gratuity for which provision has already been made in the Budget.

(iv) That the Board are of opinion that in the present condition of the finances of the University the fee should not be abolished.

(v) That the Board draw the attention of the Syndicate to the desirability of settling all bills promptly.

(vi) That in view of the fact that, owing to unexpected circumstances the expenditure on certain heads is likely to exceed substantially the provision made in the Budget, the Board are not prepared to recommend this expenditure at present.

"We, the Members of the Committee appointed to consider the question of Recognition by the Calcutta University of the

High School and Scholarship Examination of Burma, have the honour to recommend that boys, who have passed the aforesaid Examination with a classical language as one of their subjects, be considered to have passed an Examination equivalent to the Matriculation Examination of this University provided that the requirements of the University Regulations as to the minimum age have been satisfied; we further recommend that all students who, after passing the above High School and Scholarship Examination without taking up a Classical Language, desire to qualify themselves for admission to the Intermediate Examination of this University, should be required to pass in a Classical Language to the standard of the Matriculation Examination, before admission to the Intermediate Examination.

As in Burma, a separate curriculum of studies is prescribed for girls, which differs in certain essential respects from that prescribed for boys, and as a Second Language is not one of the compulsory subjects for female candidates, we beg to recommend that the female candidates who have passed the Burma High School and Scholarship Examination with a Second Language as one of their optional subjects, be regarded to have passed an examination equivalent to the Matriculation Examination of this University, provided the Second Language taken up by them be a Classical Language or one of the Vernaculars sanctioned by the Syndicate for Female Candidates, which may be substituted for a Classical Language, included under Sub-section 3, Section 9 of Chapter XXX of the Regulations.

As Tamil, Telugu, French and German are included in the list of Second Languages which Female Candidates are allowed to take up in Burma, we recommend that these be added to the list of vernaculars, sanctioned by the Syndicate, in the case of Female Candidates for the purposes of section 9 of Chapter XXX of the Regulations.

Female candidates, who, after passing the Burma High School and Scholarship Examination without taking up one of the Vernaculars, sanctioned by the Syndicate, or a Classical Language, desire to qualify themselves for admission to the Intermediate Examination of this University, should be required to pass in one of these languages to the standard of the Matriculation Examination before admission to the Intermediate Examination.

Report on the Edward College, Pabna.

We inspected the college on January the 31st in accordance with instructions.

The college is still working in its old buildings and the present conditions are far from satisfactory. The new buildings are approaching completion and will probably be occupied sometime during March. It is on the condition of the college in its new buildings that we were instructed to report.

We found the circumstances represented in the letter to your address from the President of the Governing Body, dated the 25th August, 1916, to be applicable to present conditions except in the following respects :—

A. The Governing Body has been remodelled on new rules accepted by Government. In accordance with the rules the Governing Body now consists of—

1. The District Magistrate—*Ex-officio*, President.
2. Three Government nominees.
3. One member elected by donors and subscribers.
4. Three members of the college staff, including the Principal.
5. Two members elected by the retiring Governing Body.
6. The Chairman of the Pabna Municipality—*Ex-officio*.
7. One nominee of the sons of the late Rai Banamali Ray, Bahadur, (his youngest son has been nominated).

The tenure of office is for three years.

B. There is one change in the staff. Babu Manomohan Deb, Professor of Mathematics, being on leave. The staff at present is constituted as follows :—

<i>Name and Designation.</i>	<i>Qualifications.</i>	<i>Salary. Rs.</i>

The new buildings affording the following accommodation—

1. 1st-year Lecture Room	47'-3" x 25'
2. 2nd-year Lecture Room	46' x 25'
3. Tutorial Class Room	18' x 16'
4. Tutorial Class Room	25' x 20'

6. Principal's Room	16' x 16'
7. Professors' Room	16' x 16'
8. Library	25' x 13'

13. Balance Room	11' x 12'
14. Science Professor's Room	11' x 11'-9"
15. Persian Class Room	25' x 14'

are situated on an excellent site and are satisfactory in every way. They are remote from disturbance, airy and well-ventilated and so situated as to

have the maximum of light. The new college will be a noteworthy addition to the educational buildings of the province. On the same site are situated two hostels, one to accommodate 40 Hindu students and the other 20 Muhammadans. Further accommodation will be required and it is intended, as a temporary measure, either to rent a house or to erect a *katcha* building. The site itself, when laid out, will form excellent accommodation for sports and recreation. The only comments we would make on the building are—

(1) that the Library room is rather small and will not afford accommodation for reading;

(2) that the Library room immediately adjoins the Students' Common Room, not a desirable arrangement.

We consider the staff sufficient for present requirements in consideration of the methods of work here followed. It will, however, be necessary to increase the staff in English as soon as lecturing gives place in a larger degree to some kind of tutorial instruction. We consider the emoluments of the staff to be satisfactory in view of the consideration that it intended to raise them when opportunity offers. The earliest opportunity should be taken of increasing the salaries of the teacher of Persian and the Demonstrator. The Provident Fund recently established is some addition to emoluments and in this way a contribution towards greater stability of tenure.

The number of students at present amounts to 321, of whom 5 per cent. are free scholars. 139 in the 1st-year (110 Hindus and 29 Mahomedans) and 182 in the 2nd-year (151 Hindus and 31 Mahomedans). 150 students have been sent up for the I.A. Examination. In the 2nd-year two sections have been opened in English. This division is not necessary in any other subjects. 170 students come from the District of Pabna, 24 from Nadia, 37 from Mymensingh, 27 from Faridpur and small numbers from other districts 21 applicants were refused last year. Boarders number 120.

The financial situation is briefly this .

Receipts :

Government aid	Rs. 500 a month.
Fees	" 1,300 "
Subscription and interest on endowments	" 100 "
Total			.. " 1,900 "

Expenditure :

Salaries	Rs. 1,145 a month.
Clerical Establishment	" 70 "
Menials	" 40 "
Laboratory	" 40 "
Library	" 25 "
Rent and Taxes	" 65 "
Furniture	" 10 "
Provident Fund	" 20 "
Sweeper	" 5 "
Contingencies	" 50 "
Common Room	" 10 "
Allowances for Hostel superintendence	" 60 "
Total			.. " 1,540 "

As the numbers are steadily increasing, the college hopes to raise its roll to at least 450 in the near future : this, while adding to the requirements in staff, will, it is expected, place its finances on an even more satisfactory basis.

We recommend the affiliation applied for, believing that in its new buildings there will be every reason for confidence that the college will

satisfy a definite local need. We nevertheless feel it incumbent on us to note that the Library is inadequate in almost every branch of study, and that the methods of work followed, appears to us to be not the best. The time-table makes heavy demands upon the majority of the students, who attend from 5 to 7 lectures a day. The force of the explanation urged in defence of this, that the majority of the students are backward and require considerable attention, is recognised. Nevertheless we feel that the opportunity of training students in working for themselves and by themselves is being lost, and that these students, migrating to other colleges for their 3rd and 4th-years, may find themselves at a disadvantage in comparison with their fellows trained under more definitely collegiate conditions. To require students to attend an average of two lectures daily in English and one in each of their other subjects is not in our opinion educationally sound. It is physically exhausting and leaves them too little leisure for their own work, and possibly explains the present inadequacy of the college library and the little use made of it, as also the absence of facilities for using library books on the spot in the new buildings.

To

THE REGISTRAR.

CALCUTTA UNIVERSITY.

SIR;

We submitted our Report in connection with the application for affiliation of the Comilla Victoria College up to the B.A. Pass standard some days ago. As a letter from you directing our attention to a letter of the Director of Public Instruction, Bengal, to the President of the Governing Body of that college in connection with the extension of affiliation of that college has reached us, we beg to submit this supplementary Report.

We have already shown in our Report that the accommodation and staff to be provided will be quite adequate. We beg further to invite the attention of the Hon'ble the Vice-Chancellor and Syndicate to the reply (annexed to this supplementary Report) of the President of the Governing Body of that college to the Director of Public Instruction's letter. We wish to add that, as the Principal informs one of us, the combinations that will be permitted in the B.A. Classes are :—

1. English, Vernacular Composition, Philosophy and History.
2. English, Vernacular Composition, Philosophy and Sanskrit or Persian.
3. English, Vernacular Composition, History and Sanskrit or Persian.

The Principal has wired to-day to one of us that the application for affiliation in B.A. Pass Mathematics has been withdrawn. Hence the addition to the staff in Mathematics that we mentioned in our Report will not be necessary.

The dimensions of the existing Library are in our opinion adequate for the enlarged college.

We, accordingly, adhere to our view that the college may be affiliated in the subjects mentioned in our Report with the exception of Mathematics and we recommend that the college be affiliated in English, Bengali Composition, Philosophy, History, Sanskrit and Persian up to the B.A. Pass standard from the commencement of the session 1917-18.

We have the honour to be,
Sir,
Your most obedient servants,

J. R. BANERJEA.

B. M. SEN.

A. N. WAHEED.

The 27th January, 1917.

From T. Emerson, Esq., I.C.S., President, Governing Body, Comilla Victoria College, to the Director of Public Instruction, Bengal, Calcutta, No. 67, dated Comilla, the 19th December, 1916.

I have the honour to acknowledge the receipt of your letter No. T-339, dated the 10th October, 1916, regarding the extension of affiliation of this college up to the B.A. standard. I thank you for the valuable suggestions made therein, and hope they will be appreciated and carried out by the Governing Body of the college.

The subjects, in which affiliation is sought are English, Vernacular, Sanskrit, Persian, Mathematics, History and Philosophy. The choice of subjects is apparently limited. Subjects and admission of students will be restricted in accordance with the strength of the staff and the accommodation available.

2. Accommodation will be provided according to your suggestions and those of the University Inspectors who recently inspected the college in connection with the application for its expansion. In the new buildings 4 rooms may be so provided that they could accommodate the full prescribed number of I.A. students. B.A. Classes may be held in the existing building

3. Common Room. This college is a second grade one. There is one common room, besides the reading room. The common room seen by the Hon'ble Mr. Lyon has been removed to the reading room which is an excellent room and should be sufficient for the college even when the status is raised to the B.A. standard but it will be easy to provide an additional room when the new buildings are made.

4. Qualifications of the existing staff. A statement showing the qualifications of the present staff is annexed. I have no doubt about the competence of the existing staff with their present pay and prospects they are not likely to leave their posts.

Qualifications of the existing staff.

From the Hon'ble Mr. W. W. Hornell, M.A., Director of Public Instruction, Bengal, to the President, Governing Body, Victoria College, Comilla, No. T339, the 10th October, 1916.

I have the honour to acknowledge the receipt of your application, dated 9th September, 1916, addressed to the Registrar, Calcutta University, through me and the Commissioner of the Chittagong Division (who has endorsed it) on the subject of the extension of affiliation of the Victoria College, Comilla, up to the B.A. standard in English, Bengali, Philosophy, Mathematics, Sanskrit, Persian and History.

2. The application has been sent to me apparently in order that I may secure, if possible, the approval of Government to the proposal made in it. I am of course unable to anticipate in any way the view likely to be taken by Government with regard to the proposal to convert the Comilla College into a first grade institution, taken by itself and without reference to the conditions under which it is proposed that this conversion should be effected, but, this apart, it is impossible for me to ask Government to approve the scheme which has been submitted. If it is still desired that the approval of Government should be secured I would ask you to reconsider and submit revised proposals in the light of the following remarks.

3. It is not stated what combination of the subjects in which additional affiliation is sought will be permitted. This information is essential for a proper examination of the case. It appears unlikely that so many as eleven class rooms will be required unless undue restrictions are placed upon the choice of subjects by students.

4. The following are the number of students who may be expected to join the various classes.

1st-year A	.. 150
			B	... 150
2nd-year A	... 150
			B	... 150
3rd-year 65
4th-year 85

} 150

5. The accommodation proposed is insufficient for the needs of the classes which it is desired to maintain. In particular it is proposed to have 4 classes of 150 students each and to provide no single room capable of accommodating 150 students. The existing accommodation is so deplorably inadequate for the work of the college as it is at present that unless substantial improvement is made or the number reduced I shall have to consider whether it will not be necessary for me to advise Government that the existing recurring grant

be withdrawn. *Prima facie* it does not appear to be an opportune time for considering the extension of the college's scope.

6. A comparative statement showing the accommodation proposed and the minimum accommodation required is enclosed herewith for your information. It is clear that the total floor space proposed is ample but the rooms appear to have been arranged without any proper consideration of the requirements of the college as a whole. It might be possible to put the third and fourth-year classes into two of the existing rooms and the B. A. Mathematics class into the room at present used by the Persian class; the two largest of the existing rooms could then accommodate a section of 107 students of the 1st-year and a section of 112 students of the 2nd-year, respectively. This section should be strictly limited in accordance with the accommodation available. Four additional class-rooms would then be required:—Two of 1500 sq. ft. each, one of 450 sq. ft., one of 300 sq. ft. Total area 3750 sq. ft.

Nothing is said in the proposal submitted by you about office, library or junior and senior common rooms. I have some recollection of the library but the dimensions of the existing library and junior and senior common rooms if they exist, should be given and it will be necessary to consider whether they will be adequate or not for the enlarged college.

7. As regards the additional teaching staff it is proposed to entertain 5 additional lecturers at an average salary of Rs. 134 a month (allowing Rs. 30 for salaries of clerk and servants.) The existing members of the staff will presumably be professors in the various subjects. The qualifications of these latter are not stated but the fact that they have hitherto been considered competent to teach Intermediate classes does not necessarily fit them for B. A. work. Until it is known what class of men will be recruited on the proposed terms it is not possible to judge whether the staff proposed will be adequate or not.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd.) W. W. HORNEILL,

Director of Public Instruction, Bengal.
